

The Extension Service uses Listserv® electronic mailing lists to distribute email messages to groups and to facilitate electronic discussion. Please refer to the following information for more about how lists are used and maintained in Extension.

- The Extension Service electronic mailing lists are stored centrally at WVU and updated regularly.
- By addressing a message to **ESALL-L@listserv.wvu.edu** (list with all Extension employees), you can send the message to everyone in Extension.
- To create new electronic mailing lists, contact Gitta in the Technology office at 293-2539, or by email (Gitta.Jenkins@mail.wvu.edu).
- You must be subscribed to a list in order to send messages to that list. This is to protect the list from being spammed.
- To see if you are subscribed to a list, send a message to listserv@listserv.wvu.edu with the message: review listname, where listname could be ESALL-L, ESCO-L, or any other list name.
- To subscribe to a list, send an email message to the particular list you wish to join with the word “subscribe” in the body of the message. It will automatically be sent to the list owner(s), and the owner(s) will then add you to the list.

All list names end in: @listserv.wvu.edu

General

Administrators	ESADM-L
